St. John's, Newfoundland is the
oldest city in North America.
St. John's is where warm,
friendly people are waiting to
greet and welcome you to their
city.

Hike the rugged coast as you pass
10,000 year old icebergs, look
into the depths of a striking fjord
or enjoy music with the rhythms
of East Coast fiddles.

The background image shows a vast ocean scene. In the foreground, a whale is breaching, with its dark back and tail fluke visible above the water, creating a large splash of white water. In the middle ground, a large, jagged iceberg rises from the sea. To the left, a small red boat is visible on the water. The sky is a mix of blue and white, suggesting a bright day.
